The IPSI Public Forum serves a twofold purpose of: (1) strengthening collaboration and synergies among members as well as between the Satoyama Initiative and other relevant initiatives and programmes, and (2) enhancing understanding and raising awareness of the importance of socio-ecological production landscapes and seascapes (SEPLS).

At IPSI-6, the Public Forum will serve as a place to exchange the diverse experiences of IPSI members and relevant stakeholders who are working on SEPLS in Cambodia and around the world. In particular, this Public Forum will aim to review IPSI's activities toward achieving the Strategic Objectives identified in the IPSI Plan of Action 2013-2018, which was adopted by the IPSI General Assembly in 2013 to provide guidance for activities related to the partnership. Participants will discuss the current status and future outlook of their activities to address the Priority Actions identified in the Plan of Action. It is expected that this Public Forum will also increase the participants' familiarity with the Plan of Action as well as identify elements helpful for IPSI's future development up to 2018 and beyond.
